

Goldens For Good

Brought to you by: Studley Hill Goldens, LLC.

ABOUT US:

The world is in need of compassion and love. At Studley Hill Goldens, we started a charity mission to help raise, train, and promote dogs of service within our community. Our program, called "Goldens for Good," works to provide a dog (either from our litters or canine candidates whom we have rehabilitated) to local families and facilities in need. This includes the training and certifications required for such service. Part of our commitment is to help rehabilitate and rehome dogs from local shelters. The options for service companion we can provide include: *Emotional Support Animal, Service Dog, and Therapy Dog*. We also offer free Therapy Dog visits to facilities in need using our own highly skilled, trained, and qualified Therapy Dogs.

ACCEPTING DONATIONS:

As you can imagine, the puppy rearing process and training required to become a service dog is not only a time commitment, but also a monetary investment. To help support our mission and growth within the local community, please consider donating to help offset these costs. Funds will go towards items including, but not limited to: veterinary service fees, training fees, and basic food & supplies for the prospective puppies/dogs enrolled in our prestigious program. Donations also help to provide free training services to needy families who have received a service dog from us.
